Dear Parent/Carer

Toilets in our New School

Over the last 3 or 4 months there has been some discussion about the toilets for the students and community in our new school. This can be a sensitive issue, and we know this from visits to other new build schools and as part of workshops that have been held.

As explained at various meetings, including workshops and Parent in Partnership (PiP) meetings, we have been working to develop an inclusive strategy, hence our new build will have a range of facilities for use by our students and the community. Students will always have a choice and, as an inclusive school, that is extremely important to us.

To support this, we have held workshops with parent/carer representatives and students. From this, our new school will include separate, designated male and female toilets, along with gender neutral and accessible toilets, on each level of the building. There will be floor to ceiling cubicles and central wash hand basins will be situated outside of the cubicles.

If anyone would like further information or to discuss, please don't hesitate to contact the school via email admin@currie.edin.sch.uk.

Yours faithfully

Mrs J Hutchison
Head Teacher

Mr J Schmidt
Acting DHT (New School)
